

WEEKLY

update

April 15-19

WHAT WE ARE LEARNING

In reading we are jumping into biographies. We will be learning about a lot of interesting people and work on our monthly book report as well! Students are writing a 5 paragraph essay on the person they chose to study and are conducting good research.

In math we are jumping around a bit to chapter 14! This geometry chapter will refresh our memory on shapes and figures before we apply them to fractions and area and perimeter to finish up the school year. Our test will be on Friday.

We are FINALLY back to science! We are working on our unit on plants and animals changing over time. Our essential question is "why do organisms become extinct". We will study fossils, rocks, and survival of the fittest to fully understand plant and animal extinction. Next week we are beginning Michigan's government.

This week in Religion we continuing to talk about the church season of Easter and Jesus' Ascension into heaven. You can find the newsletter attached in this week's email.

SPELLING WORDS

-ed, -ing, -s endings

List 1:

names
hoping
dropped
named
dances

Last Day of School, half day

REMINDERS

Please please please help your student check the weather each morning before they come to school. Coats and pants (not shorts or skirts) might be needed in this wacky spring weather!
