

WEEKLY

September 5-8

update

We have a big week ahead!

This week we begin our enrichment classes. We will also begin our reading and math curriculum.

With this start, homework is also coming into play. We will complete the first Simple Solutions lesson, together in class, Tuesday morning. The class will complete one lesson each night to prepare for a quiz on Friday. This will happen each week.

As we introduce homework, please let me know if you see anything I can do to support your student (and you!) for their continued work at home. I am here to help you ALL!

Have a blessed week!

WHAT WE ARE LEARNING

In reading class, we will begin Wonders. Our essential question this week is: "How do people from different cultures contribute to a community?". We will work on asking and answering questions as well as sequencing stories.

Our first math chapter will help us review place value and rounding. This week we will practice comparing numbers and ordering numbers.

We planted our beans this week! Each student was able to plant rye grass or a black, pinto, or lima bean. We will watch these plants grow and track their lifecycle for the next 30 days.

We are continuing on with Theology of the Body. The topics this week we will look at include:

- Our families are a gift from God
- Our bodies have souls
- Christ gave Himself to us
- Giving gifts leads us to happiness, we see this with Adam and Eve before Original Sin
